COMPANY INTRODUCTION

Welcome to IAG International L.L.C, a renowned leader in engineering, procurement, construction (EPC), and services, established by Mr. Issak Aden Ali (Godei) in 1993. With a steadfast commitment to teamwork, integrity, and unwavering dedication, our company has thrived for 30 years, evolving into a global force in the field of engineering.

Founded in 1993 by Mr. Issak Aden Ali (Godei), IAG International L.L.C stands tall as Somalia's premier name in procurement, supply chain management, and international logistics. With an illustrious history spanning 29 years, our company is built upon the pillars of unwavering commitment, unparalleled expertise, and a relentless pursuit of excellence.

At IAG International L.L.C, procurement isn't just a service; it's our expertise. We specialize in sourcing and supplying a wide range of products, including high-quality plastics and essential commodities, to meet the diverse needs of our global clientele. Our extensive network and strategic partnerships enable us to navigate the complexities of international trade with precision and efficiency, ensuring seamless delivery to every corner of the globe.

Delivering Unparalleled Solutions With Integrity And Innovation

Heavy Duty 5 Gallon Container

Crafted with durability and reliability in mind, the LCI600409 sets the standard for heavy-duty plastic water containers. Designed to meet rigorous military specifications, this rugged water jug ensures your water supply remains secure and pristine, no matter where your journey takes you.

Product Overview

This heavy-duty and durable container is made of LDPE and HDPE plastics that are BPA free, keeping chemicals, odors, and tastes out of your water.

Carrying handle allows for easy transporting

Made with food-grade LDPE and HDPE plastic BPA free: will not add taste, odor or chemicals to water

Small spout makes it easier to fill water bottles

Why Choose IAG International LLC

Variety of Colors: Our products come in a diverse range of colors, allowing you to match your brand aesthetics or preferences effortlessly.

Strength and Durability: Engineered with robust materials, our products boast unmatched strength and durability, ensuring they withstand the rigors of transportation and storage without compromise.

Weight-Friendly Design: Designed with efficiency in mind, our products are lightweight yet sturdy, maximizing payload capacity without sacrificing durability.

Speed of Delivery: With our streamlined logistics and efficient supply chain management, we guarantee prompt delivery to meet your timelines and keep your operations running smoothly.

Bulk Delivery Capability: Whether you require a small batch or a large-scale order, we have the capacity and capability to fulfill your procurement needs with ease, ensuring uninterrupted supply to support your business objectives.
